

New Membership Year Begins January 1, 2021

The Institute for Energy Law's membership year ends on December 31, 2020. Membership comes with many benefits, which vary based upon the level of membership. Generally, membership allows all Advisory Board Members to attend IEL's Annual Oil and Gas Law Conference and the new Advisory Board Member Conference. In addition, members receive free access to IEL's many live webinars, substantive programs, and social events. Members also receive significant discounts on IEL conference registrations. Advisory Board Members may participate on IEL's practice committees and may be appointed to IEL's strategic committees and publications. Employees of Sustaining and Supporting Members also receive discounted registration on IEL's conferences and free webinars.

If you have not done so already, please become a member or renew your membership in IEL now. Details on membership are available at www.cailaw.org/institute-for-energy-law.

IEL Online Learning Catalogue Now Available

The Institute for Energy Law's new Online Learning Catalogue is now available! In 2020, IEL significantly increased its online offerings to assist professionals with meeting their MCLE requirements and to provide meaningful educational and professional development programs in an accessible format. IEL's new Online Learning Catalogue was created to allow easy access to the recorded versions of these new programs, as well as other webinars hosted in recent years.

While these programs are available to everyone at reasonable prices, IEL Advisory Board Members have free access to webinars. In addition, employees of IEL's Sustaining and Supporting Members may access the webinars for 50% off and also receive discounted pricing for conferences.

The catalogue is connected to the online learning section of our website, but you may also access it at <https://cail.ce21.com>. Not every program offers MCLE credit, and IEL will only file credit in select states for those programs which do offer MCLE Credit at this time; however, other states may allow you to self-report credit.

We hope you find this new Online Learning Catalogue a significant tool to stay current on the latest legal issues in energy law and to satisfy your MCLE requirements.
