

## RACIAL PROFILING: DATA COLLECTION AND ANALYSIS

Course Overview:	This course is designed to address the current managerial problems and critical issues facing law enforcement agencies with regard to racial profiling. Discussion will overview several areas including defining, measuring and collecting data on racial profiling. In addition, the course will cover the analysis, reporting and dissemination of racial profiling data. The focus of this program is on managing this critical and volatile information in order to ensure positive interaction among the police agency, the community and other governmental entities.
Topics:	<b>Legislative Updates</b> Current Practices of Participating Agencies Concerns and Issues of Participating Agencies Definitional and Measurement Issues <ul style="list-style-type: none"><li>- Lack of standardized procedures</li><li>- Scarce resources and the analysis of profiling data</li><li>- Issues related to units of analysis</li><li>- Identifying discretionary and non-discretionary actions</li><li>- Problems associated with valid population base-rates</li><li>- The identification of driver race</li></ul> Data Collection and Analysis Issues Presentation by Local Police Chiefs Minimizing Liability and Racial Profiling Dissemination and the Reporting of Results
Who Should Attend?	This course is recommended for management and command-level decision makers, along with those charged with developing policy on racial profiling, collecting data on racial profiling, and supervising racial profiling data management. It will also be of interest to governmental risk managers and legal staff.
