PLENARY SESSIONS

9:00 KEYNOTE: MOUNTAINS AND OCEANS: A LOOK AT POSSIBLE 21ST CENTURY ENERGY LANDSCAPES

For over 40 years, Shell has informed its strategic thinking with future-looking scenarios based on global economic, political, cultural and technological trends. Its current scenarios look further into the future through a broader array of lenses than ever before. Some of their pathways and paradoxes may surprise you.

— **Niel Golightly**, Vice President External Relations, Shell Oil, Houston, Texas

10:00 RECENT DEVELOPMENTS IN OIL AND GAS LAW

Professor Kulander will review important cases and other developments in oil and gas law over the last year.

— **Chris Kulander**, Associate Professor of Law, South Texas College of Law, Houston, Texas

11:00 BREAK

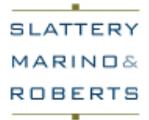

11:20 ETHICS PRESENTATION: NUDGING BETTER BEHAVIOR IN ORGANIZATIONS

How social science can lead to more ethical behavior in law firms.

WATER MODULE

Russell S. Johnson, Module Chair
McGinnis Lochridge, Austin, Texas

1:30 CONNECTING THE ISSUE: NORTH DAKOTA ROYALTY LITIGATION FLARES UP

This presentation will provide an overview of flaring in North Dakota, and then dig into the recently-dismissed class-action flaring royalty claims made against fourteen different exploration and production companies operating in North Dakota. We will assess the underlying claims and defenses, and the governing judicial, statutory and regulatory framework in North Dakota. As the Bakken/Three Forks play matures and local political pressure increases on industry operations in North Dakota, many of the lessons learned in defending these royalty claims will be helpful in navigating future oil & gas litigation in the Williston Basin and beyond.

— **Matthew J. Salzman**, Stinson Leonard Street LLP, Kansas City, Missouri

1:30 WATER AND OIL & GAS

Our panel will consider three important aspects of water:

- Access, availability and alternatives
- Disposal and recycling
- Quality, including the role of ground water conservation districts

2:15 FRAC BANS AND MORATORIUMS: A GROWING THREAT AND WHAT TO DO ABOUT THEM

This presentation will look at the issue of frac bans and moratoriums. More than 400 cities and other communities have passed ordinances or regulations that ban or severely limit hydraulic fracturing. Our speakers will discuss these ordinances and regulations, the potential claims that might be asserted by affected oil and gas operators and mineral interest owners, and how courts have addressed the legality of these provisions and the merits of the claims.

- **William M. Kroger**, Baker Botts L.L.P., Houston, Texas
- **Thomas R. Phillips**, Retired Chief Justice of the Supreme Court of Texas, Baker Botts L.L.P., Austin, Texas

3:00 BREAK

3:15 OFFSHORE EXPLORATION & PRODUCTION: ISSUES AND CHALLENGES OF VARYING DEPTHS

Recent liquidity, operational and other problems faced by oil and gas companies have had a significant and material ripple effect on rights, exposure, and burdens of other parties active in the offshore industry. Unlike the environmental, risk and protective changes resulting from the Macondo incident, this presentation will focus on the issues that exist when offshore businesses run into liquidity or other problems and the material effects they may have on other, perhaps unsuspecting, parties from predecessor owners to investors to service providers to regulatory agencies. What are the warning signs and what protections can be put in place?

- **Charles S. Kelley**, Mayer Brown LLP, Houston, Texas

4:00 THE HOTTEST OIL & GAS CLAIMS FOR 2015 -- AND HOW TO BEAT THEM

Changes in the oil and gas industry beget new things for operators, royalty owners, and others to fight about. Cases relating to unconventional oil and gas, for instance, spiked 69% in 2013, and they continue to surge. What can you do to protect yourself and your company? A plaintiff's lawyer and a former in-house lawyer give the claimants' and defendants' perspectives on the hottest oil and gas claims you'll see in 2015.

INTELLECTUAL PROPERTY AND TECHNOLOGY MODULE Bruce S. Sostek, Module Chair Thompson & Knight LLP Dallas, Texas	ENVIRONMENTAL MODULE Robert W. Johnson, Module Chair Assistant General Counsel – Legal Services, Exxon Mobil Corporation Houston, Texas	IEL FORUM
<p>10:45 OIL AND GAS COMPANIES AS TECHNOLOGY COMPANIES, AND HOW TECHNOLOGY AND IP DRIVE THE INDUSTRY</p> <p>Advanced technology is increasingly being used to enhance the objectives of the petroleum business in almost every area. But what is meant by “advanced technology” as it relates to breakthroughs in information infrastructure, communication, and processing in the big data age? Exploration techniques and equipment, oil rigs, vessels, and refineries are getting smarter and better connected every year. New technologies that do not appear to be directly related to oil and gas are being evaluated by the industry and implemented to reduce costs, gain efficiency, improve safety and increase environmental protections. How do, and how will these advances in intellectual property and technology continue to drive the industry?</p> <p>— Todd A. Bynum, Lead Counsel, Technology and IP Analytics, ConocoPhillips, Houston, Texas</p>	<p>10:45 EMERGING ENVIRONMENTAL LEGAL, REGULATORY AND POLICY ISSUES FOR OPERATORS</p> <p>Oil and Gas Operators continue to face a host of complex legal, regulatory, and policy issues in today’s challenging operating environment. What are the issues that are “around the corner” that operators need to be aware of? Our panel of experts will discuss emerging environmental and other issues that the oil and gas industry may face in the next few years. They will discuss what regulators, policy-makers, and environmental interest groups see as key issues of concern, and offer suggestions on what operators ought to be doing now to be best prepared to deal with them.</p> <p>MODERATOR</p> <p>— Robert W. Johnson, Assistant General Counsel - Legal Services, Exxon Mobil Corporation, Houston, Texas</p> <p>PANELISTS</p> <p>— Roger Martella, Sidley Austin LLP, Washington, D.C.</p> <p>— Clara Poffenberger, Principal, Clara Poffenberger Environmental Law & Policy, Fairfax, Virginia</p> <p>— Peter Zalzal, Senior Attorney, Environmental Defense Fund Boulder, Colorado</p>	<p>10:45 IEL FORUM</p> <p>An unscripted opportunity to discuss current issues in energy practice.</p> <p>MODERATORS</p> <p>— Kevin Colosimo, Managing Partner, Pittsburgh Office, Burleson, Canonsburg, Pennsylvania</p> <p>— Richard C. INTELLECTUAL PROPERTY AND TECHNOLOGY MODULE, CONT.	ENVIRONMENTAL MODULE, CONT.
<p>11:15 THE INTERSECTION OF TECHNOLOGY AND IP ENFORCEMENT IN THE OIL AND GAS INDUSTRY</p> <p>Many oilfield equipment and services providers are focused on developing and commercializing innovations in order to obtain a competitive advantage and increase sales. Enforcement of associated IP rights has come to the forefront as a means of further protecting commercial advantages in a hyper-competitive marketplace. What IP enforcement methodologies are available, and what are the potential risks and rewards? What types of patented technologies have been enforced through the litigation stage? Recent trends and issues related to the enforcement of IP rights in the oil and gas services sector will be highlighted and explored.</p> <p>— Joan E. Beckner, Senior Attorney, Intellectual Property, OneSubsea™ – A Cameron & Schlumberger Company, Houston, Texas</p>	<p>11:30 CACTI AND CRITTERS – ESA CASE STUDIES AND STRATEGIES FOR OIL AND GAS COMPANIES</p> <p>This presentation will provide an overview of the Endangered Species Act, including the decision making process of listing a species as threatened or endangered, the potential impacts of a listing decision on oil and gas operations, as well as the delisting process. The presentation will utilize two species as a case study to highlight specific challenges to oil and gas leasing and operations and potential strategies to overcome or minimize these challenges.</p> <p>PANELISTS</p> <p>— Kristine Linville, Counsel, Exxon Mobil Corporation, Houston, Texas</p> <p>— Bret A. Sumner, Beatty & Wozniak, P.C., Denver, Colorado</p> <p>— Brian Rutledge, Executive Director, Audubon Wyoming, Fort Collins, Colorado</p>
<p>11:45 IP LITIGATION AVOIDANCE... AND WHAT TO DO IF AVOIDANCE DOESN'T WORK</p> <p>Avoiding litigation of any kind is always desirable. This presentation will cover techniques for avoiding IP litigation. In addition to tips for litigation avoidance the presentation will also cover how to handle litigation, should it arise, with a particular view to keeping costs, disruption, and risks as low as possible.</p> <p>— Richard F. Phillips, Chief Attorney— Technology, ExxonMobil Chemical, Manager— Trademark and Copyright Law, Exxon Mobil Corporation, Houston, Texas</p>

1:45 ETHICS PRESENTATION: LITIGATION FUNDING

Litigation financing is nonrecourse funding of litigation by a non-party for a profit. It is a burgeoning and controversial phenomenon that has penetrated the United States in recent years. This presentation will describe the ethical and economic challenges faced by the parties entering into litigation finance contracts and outline the potential contractual solutions parties have devised to eliminate or minimize such pitfalls.
