VISITED BY MORE THAN 1 MILLION TOURISTS EVERY YEAR!

"The historic Wieliczka Salt Mine is the only site in the world where mining have been continued since the Middle Ages. Lying on nine levels, its original excavations (longitudinals, traverses, chambers, lakes, as well as lesser and major shafts) stretch for a total of 300 kilometres reaching the depth of 327 meters and illustrate all the stages of the development of mining technology over time." - the quotation from September 8th 1978, when Wieliczka Salt Mine, along with 11 other sites from all over the world, joined the UNESCO's very first World Heritage list. The mine is also notable for its long tradition of tourism. The famous breathtaking site has been visited over the centuries by Nicolaus Copernicus, Johann Wolfgang von Goethe, Alexander von Humboldt, Dimitri Mendeleev, Pope John Paul II, and crowned heads of state, not to mention millions of people from all over the world. The tour includes a visit to the stunning "underground town" with lakes, passages, and the marvellous Chapel of St. Kinga.

Magnificent chambers chiselled out in rock salt. Amazing underground saline lakes, majestic timber constructions and unique statues sculpted in salt. Almost 3 kilometres of meandering corridors, 800 steps to go down of which 350 have to be descended to reach the depth of 135 meters underground. Thus, it is no surprise that till now, the Tourist Route - the main visiting route of the mine has been visited by 36,000,000 tourists from around the whole world in search of adventures.

## THE WORLD'S LONGEST UNDERGROUND SLIDE!

Bochnia's undeniable asset is its unique combination of severity, naturalness and state-of-the-art multimedia exhibitions which never fail to fascinate visitors. After eight centuries of working, it now has a character of an underground town where you can even take a ride by the underground train, slide down the world's longest underground slide and take an underground ferry ride crossing the brine lake flooding the chamber. The wooden boats are listed in the Polish Register of Ships, just like the sea-sailing ships.

After arrival you will descend into the mine by a miner's lift and explore the route mostly on foot but some parts of the distance are covered by a tourist train. During the tour you will have a chance to explore a network of chambers and galleries with unique shapes and geological structure including a horse stable, wooden treadmill exhibitions and the Saint Kinga's Chapel which is located at the August Level at a depth of 212 m below ground. It is the largest and the best preserved chapel in the Bochnia Mine. The tour ends in the largest chamber, the Wazyń, where you can slide down the world's longest, 140-metre slide and on Sundays you will have a unique opportunity to enjoy world's only ferry crossing of an underground chamber flooded with brine. At the end you will come up to the surface by the same miner's lift and we will take you back to Kraków.

Explore the oldest Salt Mine in Poland and enjoy the unique opportunity to take a ride on an underground train and a slide down the world's longest, 140-metre slide connecting 2 levels of the mine. Learn about the history of salt mining, the hardships of miners' work as well as the history of Poland thanks to Bochnia's Multimedia Exposition. Want more? Every Sunday we will take you on an underground ferry ride.

**AUSCHWITZ - BIRKENAU IS THE SITE OF THE MOST NOTORIOUS MASS MURDER IN THE HISTORY OF HUMANITY. ITS REMNANTS HAVE BEEN MEMORIALISED AND SERVE AS A MIRROR OF THE HUMAN SOUL AND A TOOL FOR SELF-REFLECTION.**

Established in 1940 by the Nazis during WW II, Auschwitz was an enormous labour camp and death factory. The name "Auschwitz" comes from the Polish word "Oświęcim," the name of the Polish city near which the camp was built. The complex consists of two main camps: Auschwitz I - the administrative centre - and Auschwitz II (Birkenau) - the extermination camp. The number of people exterminated at the camp has been estimated to be between 1.1 -1.6 million. Most of the victims were killed in the gas chambers using Zyklon B; other deaths were caused by systematic starvation, forced labour, lack of disease control, individual executions and medical experiments. At the end of the war, the SS made great efforts to destroy what remained of the camp, to burn the archives and to murder everyone whom they believed to be the „Bearers of Secrets“.

Our Auschwitz-Birkenau Tour gives you the opportunity to learn more about the Holocaust and to see one of the most terrifying, yet also moving places in the world.

## THE HOLOCAUST.

 During the tour you will have a chance to visit the permanent exhibition and original buildings on the grounds of the main camp (Auschwitz) and visit the most important original objects at Birkenau. The tour gives you a chance to follow the footsteps of the man who was to become one of the greatest Popes and human beings in history. Our tour begins with a visit to Kalwaria Zebrzydowska park, national Historic Monument, added in 1999 to the UNESCO list of World Heritage Sites. Then we will visit Wadowice, "the place where it all began" as the Pope referred to his hometown in 1999 during his visit here. We will see the places dearest to Karol Wojtyła during his childhood and adolescence, including the parish church where he was baptised and the house where he was born. Our journey to and from Wadowice also gives you a chance to view the peaks of the Pope's beloved Beskidy mountain range where he used to hike. We would also like to invite you for a Kremówka, which was a favorite cake of the Pope.

**The price includes:** English speaking guide | transportation | Guided tour in the Museum of Family Home of John Paul II | Kremówka cake | visiting Kalwaria Zebrzydowska

La excursión le da la oportunidad de seguir los pasos del hombre que se convirtió en uno de los más grandes Papas y seres humanos en la historia. Nuestro recorrido comienza con la visita a Kalwaria Zebrzydowska, monumento histórico nacional, que en 1999 fue inscrito en la lista del Patrimonio de la Humanidad de la Unesco. A continuación visitaremos Wadowice, 'el lugar donde todo comenzó' como el Papa se refirió a su ciudad natal durante su visita a Wadowice en 1999. Veremos los lugares más queridos por Karol Wojtyła durante su infancia y adolescencia, incluyendo la iglesia donde fue bautizado y la casa en la que nació. Nuestro viaje hacia y desde Wadowice también le da la oportunidad de ver los picos de los Beskides donde el Papa solía pasear. También nos gustaría invitarle a la degustación del pastel Kremówka, que era un pastel favorito del Papa.

**El precio incluye:** servicio de un guía profesional que habla español | el transporte | la visita guiada por el Museo Casa Natal del Juan Pablo II | degustación del pastel Kremowka | la visita en Kalwaria Zebrzydowska

L'escursione vi dà l'opportunità di seguire i passi dell'uomo, che sarebbe diventato uno tra i più grandi Papi ed gli esseri umani nella storia. Il nostro tour inizia con la visita a Kalwaria Zebrzydowska, monumento storico nazionale, aggiunto nel 1999 nella lista UNESCO del Patrimonio Mondiale dell'Umanità. Poi visiteremo Wadowice, "il luogo dove tutto è cominciato", come il Papa ha fatto riferimento alla sua città natale nel 1999, durante la sua visita qui. Vedremo i luoghi più cari a Karol Wojtyła durante la sua infanzia e l'adolescenza, tra cui la chiesa parrocchiale dove è stato battezzato e la casa dove è nato. ## LEARN THE FATE OF THE INHABITANTS OF CRACOW DURING THE SECOND WORLD WAR!

Thanks to 1993 film directed by Steven Spielberg, which action takes place in Krakow during World War II, the world became aware of one of the most moving and incredible stories related to World War II.

In June 2010, after years of preparation, The Schindler's Factory Museum opened its doors to the public. The Museum is located in the original Oskar Schindler Enamelled Goods Factory. Visitors are taken back step by step to World War II times learning its history from the beginning up until the arrival of the Soviet Army by walking through rooms filled with memories of Oscar Schindler. The Museum is one of Krakow's most important sites and an essential point for those who want to learn the city's history.

The permanent exhibition "Kraków under Nazi Occupation 1939-1945" lets the visitors learn the story about Krakow and its inhabitants, both Polish and Jewish, during World War II. The narrative begins with the events that took place a month before the War and includes first months of Nazi occupation all the way up to the history of the Krakow's Ghetto and the Płaszów Concentration Camp. Next two rooms are dedicated to the story of Oskar Schindler and 1200 Jews whose lives he saved.

The tour lasts approx. 2 hours with an option to extend the visit by watching the movies and exploring the documents related to the Heroes of this incredible story. Schindler's Factory Museum is a must see for those who want to fully understand the history of World War II and the impact it had on the City of Krakow and its inhabitants. The greatest contribution of the Steven Spielberg's film is that it presents to the world one of the most moving and incredible stories related to World War II. More than a thousand Jews of Krakow owe their lives to one single person: Oskar Schindler.

TAKE A WALK THROUGH THE JEWISH DISTRICT!

VISIT THE FAVOURITE DISTRICT OF KRAKOW'S ARTISTS!

The Kazimierz district is the historical Jewish part of Krakow. Its narrow streets and courts are rich in masterpieces of Jewish architecture.

Founded in 1335 by King Kazimierz the Great, the district used to be a separate town altogether.

### THE NEW CEMETERY - UL. MIODOWA 55

A place where many of Krakow's distinguished Jews were buried in the 19th and 20th centuries.

### ISAAC'S SYNAGOGUE - UL. KUPA 18

The renovation of this Jewish Baroque style synagogue is still in progress, yet it is probably the most outstanding and beautiful Jewish monument in Krakow.

### POPPER SYNAGOGUE - UL. SZEROKA 16

The Wolf Popper Synagogue used to be one of the most splendid Jewish houses of prayer in the old Jewish quarter of Kazimierz established in a suburb earmarked in 1495 by King Jan I Olbracht. The synagogue was founded by Wolf "The Stork" Popper in early 17th century. Its entrance was once adorned with open-work doors depicting four animals: an eagle, a leopard, a lion, and a buck deer, which symbolise the main traits of a devout man.

### TEMPEL SYNAGOGUE - UL. MIODOWA 24

The Tempel Synagogue was built in 1860-1862. It was designed after the Leopoldstadter Tempel, in Vienna, Austria. At the time the synagogue was built, Krakow was part of the Austro-Hungarian Empire. The synagogue was ruined during World War II by the German Nazis, who used the building as an ammunition storage area. A large inflow of financial contributions from private donors around the world allowed the synagogue to undergo a vast renovation from 1995 until 2000. It is still active today, although formal prayers are held only a few times a year.

**AND COSY CAFES!**

**THE OLD SYNAGOGUE - UL. SZEROKA 24**

The oldest remaining example of Jewish architecture in Poland. Built in the early 1500's, it is now the site of many exhibitions devoted to Polish Judaism.

**KUPA SYNAGOGUE - UL. WARSZAUERA 8**

This is a 17th-century synagogue, developed from a neighbourhood earmarked in 1495 by King Jan I Olbracht for the Jewish community, which has been transferred from the budding Old Town. Kupa Synagogue serves Krakow's Jewish community as one of the venues for religious ceremonies and cultural festivals, notably the annual Jewish Culture Festival in Krakow.

**REMUH SYNAGOGUE - UL. SZEROKA 40**

The Remuh Synagogue is the smallest of all historic synagogues of the Kazimierz district of Krakow. It is currently one of two active synagogues in the city.

**HIGH SYNAGOGUE - UL. JÓZEFA 38**

High Synagogue is an inactive Orthodox Jewish synagogue. It was called the High (or Tall) Synagogue for many centuries for it was the tallest synagogue in the city. It was built in 1556-1563. During the occupation of Poland in World War II, Nazis stripped the interior of all equipment. The ceiling and roof were destroyed. High Synagogue serves as a Landmark Conservation building. Since 2005 it has been open to visitors. Photographic and other exhibitions about customs and traditions of the Jewish community of the Interwar period are staged indoors.

During this walking tour, you will have an opportunity to see the Kazimierz district with plenty of romantic small cafes, which have made it the centre of artistic life in Krakow. The hot spot surrounded by buildings that witnessed horrors of the Holocaust is also a place where Jewish culture has flourished for centuries. Incidentally, the Kazimierz district was a film set for Steven Spielberg's Oscar-winning "Schindler's List". Then, we will go to the district of Podgórze to see the Schindler's factory (admission is not included in the tour price) and the surviving remnants of the Krakow ghetto from World War II.

**There will be also time for:** a 1/2 hour coffee break to discuss the social and economic situation in Poland | funny stories and legends, customs and traditions.

**DISCOVER THE BEAUTY OF THE ROYAL CITY!**

**THE CITY OF POLISH KINGS!**

See the beauty of the Old Town with its original medieval street layout, marvellous architecture, and unique atmosphere that distinguishes Krakow from the rest of Poland. As the former capital of Poland, it has a rich history which is still visible even today.

### THE ROYAL ROAD

The highlight of the Old Town, which begins at St. Florian's Church in the northern part of the Medieval Old Town, runs along Floriańska, Grodzka, and Kanonicza Street, and ends at the Wawel Castle - the old residence of Polish monarchs, which was built in the 14th century. With a large number of prominent historic landmarks on its way, the Royal Road is a true reminder of the golden age in Krakow's history.

### ST. MARY'S BASILICA - 4 RYNEK GŁÓWNY

The basilica was built in the 13th century in place of the previous one which was destroyed during one of the Tatar invasions. Inside, you will find works of the most prominent artists in this region of Europe. The magnificent altarpiece by Veit Stoss and the polychrome paintings by Matejko, Mehoffer and Wyspiański are just some of them.

### THE CHURCH OF ST. FRANCIS OF ASSISIAT - 2 FRANCISZKAŃSKA STREET

The Roman Catholic religious church on the west side of the All Saints' Square, across the street from the Bishop's Palace - residence of Pope John Paul II during his stays in the city. The church dates back to the 13th century. Saint Maximilian Kolbe was a monk there in 1919 and led his first service at this church upon Poland's return to sovereignty.

### WAWEL HILL

A 50m-high rocky hill on the edge of the old town located on the bank of the Vistula River. On the top, you will see the most important monument in Poland - the Wawel Castle. The building is a mixture of the Medieval, Romanesque, Renaissance

and Baroque styles. Up until the 17th century, the castle was the seat of the Polish royal power. One of the most important parts of the historical structure is the cathedral, which is full of chapels, tombs and sarcophagi. While visiting Wawel Hill do not forget to enter the royal chambers and the armoury. The cord in front of the cathedral offers a beautiful view of the Sigismund Chapel with its gold covered roof.

#### SS PETER & PAUL'S CHURCH - 54 GRODZKA STREET

The most important Jesuit church in the city. Built at the beginning of the 17th century, it has been rebuilt a few times and its current appearance is much different from the original one.

#### THE CLOTH HALL AND THE UNDERGROUND MUSEUM

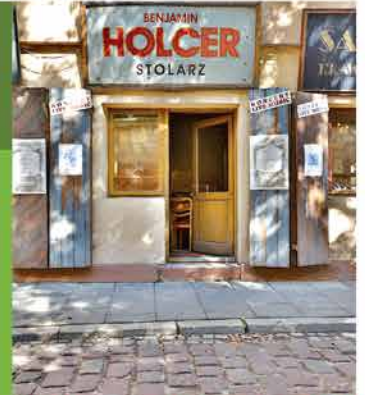

This 14th-century building was rebuilt after the conflagration in 1555 and it is a splendid edifice of the Renaissance. Some of the structures, such as the arcades or the central transepts, were added in the late 1800s.

During this walking tour, you will have an opportunity to see Wawel Hill, the royal castle and the cathedral, the Old Town, the Jagiellonian University district, the Planty Park, the Main Market Square, St. Mary's Basilica and remnants of fortifications.

**There will also be time for:** 1/2 hour coffee break to discuss the social and economic situation of Poland | funny stories and legends | customs and traditions.

Can you believe that in the Middle Ages, grapevine grew on Polish hills and the wine produced not only by monks but also by townsmen was almost as popular as beer or mead? Over the years, due to climate change and wars, Poland's wine culture almost disappeared. Recently, however, many new vineyards flourished and started winning awards in international competitions! At the end of the 15th century, Jews were transferred from Kraków to Kazimierz, where they built many synagogues, schools and houses over the years. The centre of Jewish culture was Szeroka Street, where you can see the Old Synagogue, The Remuh Synagogue and Cemetery, The Great Mikveh and Helena Rubinstein's house. Close to the Jewish part, there was also a Christian part of Kazimierz, where the Market Square (Plac Wolnica), a town hall and The Corpus Christi Basilica are located. We offer a combination of two of our most popular tours for all those who came to Kraków for a few days and don't want to choose between the Auschwitz-Birkenau and the Wieliczka Salt Mine Tour.

Auschwitz-Birkenau is a symbol of both mass terror and the cruelty of World War 2. It was the largest of Nazi Germany's concentration camps. The Wieliczka Salt Mine is a wonder of underground salt mine architecture. One of the oldest working mines in the world with picturesque halls, chapels and chambers made of salt was put on the UNESCO World Heritage List in 1978.

After picking you up from your hotel, our driver will take you to the place of your choice - the Auschwitz-Birkenau Museum or the Wieliczka Salt Mine, where you will meet your private guide. After the visit in your first place of choice, you can either have a lunch break to eat your lunchbox or a meal in a restaurant or go straight to the second site. Your guided tour in Auschwitz-Birkenau will last about 3.5 hours and in the Wieliczka Salt Mine - 2.5 hours. If you stay for a short time in Kraków and don't want to miss two of its most important places - this full-day tour is perfect for your needs!

**THE PRICE INCLUDES:** hotel/hostel pick-up | transportation by air-conditioned bus | professional tour leader | admission fee to Auschwitz-Birkenau Museum | 3,5-hour guided tour in Auschwitz Museum (Auschwitz I camp and Birkenau) with private guide | admission fee to Wieliczka Salt Mine | 2,5-hour guided tour in Wieliczka Salt Mine with private guide (Tourist Route) | hotel/hostel drop-off
